

GRIEVANCE COLLECTION - BATCH B  
Municipal Corporation Ward 15  
Date: December 2024  
---

GRIEVANCE B1:

The streetlights on Main Road between sectors 5 and 7 are not working for the last 3 weeks. This is creating an unsafe environment for people walking and driving at night. We have complained many times but nothing has been done.

GRIEVANCE B2:

The public park in Rajiv Gandhi Nagar has become a dumping ground for construction debris. Children cannot play there anymore. The swings and slides are broken and never repaired.

GRIEVANCE B3:

Water supply in Model Town is available only for 2 hours in the morning. This is not sufficient for a family of 5 members. We request 24x7 water supply or at least 6 hours daily.

GRIEVANCE B4:

The road near government hospital is full of potholes and is in very bad condition. Patients face difficulty reaching the hospital. Many accidents have happened on this road.

GRIEVANCE B5:

Electricity bills in our area show unusually high readings. When we checked, the meters were found to be faulty but no one is replacing them despite multiple requests.
